Description

Modern semi-detached houses with pool and large garden in Puig de Ros

In the sought-after residential area of Puig de Ros in the south of Mallorca, the modern new development Eneida Views is being built with a total of 16 high-quality semi-detached houses. The stylish homes combine contemporary architecture, energy-efficient technology and spacious outdoor areas and are ideal as a family residence or vacation home on Mallorca.

Each semi-detached house has 4 bedrooms and 3 bathrooms as well as a well thought-out room layout with fully exterior rooms. Large windows provide plenty of natural light and create a bright and friendly living atmosphere.

The properties offer a private garden of over 200 m² as well as their own swimming pool, which invites you to relax and enjoy the Mediterranean lifestyle. Each property also comes with two private parking spaces. Another highlight is the spacious roof terrace with solarium, from which you can enjoy the beautiful sunsets over Puig de Ros.

The fixtures and fittings meet modern standards of comfort and energy efficiency. An arothermal heat pump uses energy from the air and provides sustainable hot water. Double-glazed windows improve both heat and sound insulation and contribute to a pleasant living comfort.

The residential complex was designed by the renowned Lamela architecture firm. Buyers also have the option of customizing certain fittings and finishes so that their new home can be designed according to their personal preferences.

For added security, the homes are equipped with a security door. The construction work is covered by an insurance guarantee, giving buyers additional security when purchasing this new-build property.
